28 October 2025

Subject: Compliance under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations")

Dear Sir/Madam,

This letter serves to formally inform of the potential supply chain disruptions that may impact our Company's operations due to the ongoing situation surrounding Nexperia, one of our suppliers of electronic components.

As a global company operating in India, we are inherently reliant on a robust and interconnected global supply chain, including for electronic components. Changes in foreign trade policy and geopolitical developments, such as those affecting Nexperia, significantly impact our business. The current situation presents us with significant challenges. We are currently working to serve our customers and to avoid or minimize production restrictions. However, if there is no improvement of the export control restrictions, temporary production adjustments in selected Bosch Limited's manufacturing plants cannot be ruled out.

Restoration of normalcy in global supply situation for imported components and impacts are being very closely assessed and addressed on top priority.
Kindly take the same on record.

Thanking You,
Yours Faithfully,
For Bosch Limited,

V.Srinivasan
Company Secretary and Compliance Officer
