## **Bosch Limited enhances its portfolio in India; intends to acquire Bosch Chassis Systems India Private Limited**

April 8, 2026

Corp/C/CGR-IN

CIN: L85110KA1951PLC000761

- ▶ Bosch Limited adds Vehicle Motion business to its portfolio in India
- ▶ Stronger integration of local mobility solutions to better meet customer demands

**Bengaluru, India** – Bosch Limited, the flagship company of the Bosch Group in India intends to significantly enhance its portfolio by acquiring the Vehicle Motion business. The company plans to acquire 100 percent of Bosch Chassis Systems India Private Limited, through a cash deal and issuance of equity shares on a preferential basis.

This development positions Bosch Limited with a more comprehensive mobility portfolio, enabling it to better cater to the evolving demands of India’s automotive sector. The transaction will strengthen Bosch Limited’s capabilities enabling it to further invest in critical domains like safety and braking over and above its strong footprint in power solutions.

Bosch Chassis Systems India Private Limited represents the business of Bosch’s Vehicle Motion division in India and is one of the market leaders in automotive isafety systems. Its offerings include active safety (antilock braking system, electronic stability control, and new braking systems), passive safety (airbag ECU and sensors) and actuation braking systems for passenger cars, two-wheelers, and commercial vehicles.

“Adding Bosch Chassis Systems India Private Limited, with a future-fit vehicle motion solutions business into Bosch Limited, demonstrates our organisational belief in enhancing the company’s growth trajectory through portfolio diversification. This transaction further solidifies our leadership presence within mobility, enabling us to utilize our strengths and deliver solutions backed by local research and development and local manufacturing.” says Guruprasad Mudlapur, President of the Bosch Group in India, and Managing Director, Bosch Limited.

Post acquisition, Bosch Chassis Systems India Private Limited will continue to operate as an independent entity with its governance being driven by Bosch Limited.

“In India, we expect the mobility landscape to evolve radically by 2030 and beyond with sustainable, safe and exciting technologies. To foster a customer-first mindset and pivot from supplying individual components to delivering future-ready platform solutions, it is imperative to unite our forces and adopt an integrated approach. This transaction empowers Bosch Limited to drive growth with a wider portfolio and combined offerings across the mobility tech stack.” says Sandeep Nelamangala, Joint Managing Director, Bosch Limited, and President, Bosch Mobility India.

This portfolio realignment creates and enhances long-term value for Bosch Limited, reinforcing the company’s vision to be the preferred mobility partner for its customers across vehicle systems, software, and hardware, while being the leading technology provider for all mobility solutions.

The boards of the Bosch Group, Bosch Limited, and Bosch Chassis Systems India Private Limited have approved these transactions. It is now subject to approval from Bosch Limited shareholders. Post this approval, Bosch Chassis Systems India Private Limited will become a 100 percent subsidiary of Bosch Limited.

**About Bosch in India**

*In India, Bosch is a leading supplier of technology and services in the areas of Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. Additionally, Bosch has in India the largest development center outside Germany, for end-to-end engineering and technology solutions. The Bosch Group operates in India through 14 companies: Bosch Limited – the flagship company of the Bosch Group in India – Bosch Chassis Systems India Private Limited, Bosch Rexroth (India) Private Limited, Bosch Global Software Technologies, Bosch Automotive Electronics India Private Limited, BSH Home Appliances Private Limited, ETAS Automotive India Private Limited, Robert Bosch Automotive Steering Private Limited, Bosch Mobility Platform and Solutions India Private Limited, Newtech Filter India Private Limited, Precision Seals Manufacturing Ltd, Robert Bosch India Manufacturing and Technology Private Limited, MICO Trading Private Limited and Mivin Engg. Technologies Private Limited. Since commencing operations in 1951, we have steadily expanded our footprint across 17 manufacturing sites and 7 development and application centers, supporting both domestic and global markets. These facilities enable us to localize solutions, drive innovation, and respond with speed to dynamic customer and industry requirements. In FY 2024–25, we reported net revenue of 373,457 million INR (approximately euros 4.13 billion) and employed 38,655 associates as of March 31, 2025. Bosch Limited continues to anchor the Group’s India presence with a sharp focus on next-generation mobility, smart manufacturing, and digital transformation. It earned revenue from operations of Rs.*

18,087 crores ((1,985 million euros) in fiscal year 2024-25.

Additional information can be accessed at [www.bosch.in](http://www.bosch.in)

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 412,000 associates worldwide (as of December 31, 2025). According to preliminary figures, the company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 490 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 82,000 associates in research and development.*

*The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant upfront investments in the safeguarding of its future. Ninety-four percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a limited liability company with a charitable purpose. The remaining shares are held by Robert Bosch GmbH and by a company owned by the Bosch family. The majority of voting rights are held by Robert Bosch Industrietreuhand KG. It is entrusted with the task of safeguarding the company's long-term existence and in particular its financial independence – in line with the mission handed down in the will of the company's founder, Robert Bosch.*
